

Group Volunteer Projects

The Swaner Preserve & EcoCenter offers a variety of volunteer opportunities for businesses and other groups. These projects are important to Swaner, and at the same time, provide opportunities for group members to make a difference in their community. Group volunteer opportunities are best-suited for groups of 25 or less, depending on the project.

Some of the group volunteer opportunities that we offer at Swaner are as follows:

- **Interior/Exterior Cleaning:** Our basic weekly cleaning only goes so far. At least once or twice each year, we appreciate a deep cleaning of our EcoCenter's first floor and surrounding outdoor area with many hands needed! This group opportunity is appropriate for businesses, churches, charity groups, and family groups.
- **Trash Pick-Up:** The wind blows and trash accumulates! The stretch along the frontage road (Highland Drive) is particularly problematic, especially in the spring and summer, but trash-pick up is helpful in other locations around the Preserve as well. This opportunity is perfect for a small-to-medium school, church, business, family or scouting group. Adult supervision is required.
- **Conservation Projects:** Please click on the "Conservation Projects" link. Many of our Conservation Projects are appropriate for groups. Please note that these projects are only offered during certain times of the year.

To find out more about group opportunities available at this time, please contact Volunteer Coordinator, Ashleigh Hammond: ashleigh.hammond@usu.edu / (435) 649-1767.
